Cookies policy

In order for this site to work properly, we sometimes place small data files called cookies on your device.

What are cookies?

A cookie is a small text file saved on your computer or mobile device by a website when you visit https://www.automatedproduction.co.uk. The cookie enables the website to remember your actions and preferences such as login, language, font size and other display preferences to keep you from having to re-enter them on every visit to the website or when browsing from page to page.

Our Cookies

We use 'session cookies'. These cookies track users during their session. Closing and reopening the browser starts a new user session with a new cookie ID.

"Google Analytics" are also used. These measure the traffic of the website and identify the visitors during and beyond their session. The information generated relating to our website is used to create reports about the use of our website.

How do we use cookies?

A number of the pages on our website use cookies to remember:

- Your display preferences, such as contrast and colour settings or font size
- Whether or not you have agreed to our use of cookies on this site

In addition some embedded videos in our pages use a cookie to anonymously gather statistics on how you got there and what videos you viewed. Although enabling these cookies is not strictly necessary for the website to work, it will provide you with a better browsing experience. Cookies can be deleted or blocked, but some features of this site may not work as intended should you do so. The cookie-related information is not used to identify you personally and the pattern data is fully under our control. The cookies on this website are not used for any purpose other than those described here.

How to control cookies

You can block and/or delete cookies as you wish using your browser settings. You can delete all cookies that are already on your computer and you can set your browser to prevent them from being placed. By doing this you may have to manually adjust some preferences every time you visit https://www.automatedproduction.co.uk and some services and functionalities may not work.
